For Sale

### Description

**\*\*Price Reduced\*\***

Chemical etching machinery for Sale.

Items.

***Dynachem 360 laminator - 24" wide processing – \*Modified heat sensors and displays (cost of modification £1300+VAT receipt available)***

***HiB Line Developer, with self-contained wash module - 24" wide processing***

**HiB Line Oscillating Etching bath, with self-contained wash module – 24” wide processing**

**Natgraph Exposure unit – 1200x900mm approx.**

**Two polypropylene machine bunds/trays for wet machines.**

Small chemical etching set-up for sale.

Ideal purchase for a company that wants to start producing or are already chemical etching their own metal plates for the sign industry.

Machines were purchased as part of a project and are now surplus to requirements as our business has evolved into other areas and the machines are in storage now due to the working space being needed.

Ideally, we'd like to sell as a JOB LOT but will consider selling individual machines for the right price.

**\*\*Original purchase value of machines from a refurbished machine supplier cost around £20k +VAT!\*\***

### **Job LOT price - £10,000+VAT**

Delivery and installation is available but **not** included in the price.

*\*Delivery and installation quoted for by third party (contact given upon enquiry).*

\*Other machinery like guillotine, degreasing and cleaning tank available to compliment this small set-up. Buyer to deal with our original supplier directly.

Approximately 600sqft needed for all these machines plus any extras you may need to complete the set-up.

Machine sizes available upon request.

We can also supply a list of suppliers for chemicals & materials etc.
