Graphtec FC8600-60

For Sale

Description

Great cutter in as new condition. This machine has had minimal use. I bought it from ABP when they closed down their local sign shop and print department. It is like NEW!. It's clearly had little to no use. I bought it to have as a backup machine, but my Summa doesn't miss a beat so time to free up some space. Item is located near Brigg in North Lincolnshire. Viewing welcome.

I also have a SignLab v10 VinylPro dongle for sale which would be ideal for driving this cutter. Price to be negotiated separately.
